Hi all, it was just Alice and I on the call, Debbie and I coordinated separately and you saw the result of that, it just doesn't make sense to pull everyone out with so little to discuss.

However, the Remedy Review Board letter is of very high interest and we really have little knowledge of where to begin. Would it be possible to have a call next week with a few key folks from EPA so we can understand the nature and extent of this letter and what we should be looking at in terms of points of reference.

thanks

Subject: Prep for CAG Meeting next week

Hi all,

It would be good to catch up and talk about next weeks meeting so we can put an agenda together and send out an announcement.

Here are the key action items from last month:

--Want to make sure that the CAG has the opportunity to submit a letter to the National Remedy Review Board.

--Would need to start the discussion now on what should go into this letter, CAG and TAG to work together in a smaller group to help bring ideas forward. Chairs and Ella will work together on a process.

--Revise the TASC request to have Phase I cover the literature review and the bench scale results, Phase

Il to look at the FFS.

Deb/Carol, have you had a chance to connect with Ella yet?

I am wide open tomorrow for a call if that is possible for the rest

thanks
